THREE BLUE JACKETS

CHANCE IN NAVY FOR AN AMBITIOUS JACKIE.

When the Landlubber Ballast--His Progress Thereafter--Able Seaman--Pay and Advance--Pretty Well Cared For Generally.

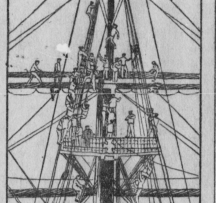

One wonders that many adventurous lads do not crowd to the navy, that it is a problem to get the number wanted. Apart from the chance for a penniless boy to get the wide world, to-day Jackie is being given wider and wider opportunities to rise in the navy--he may even mount to the dizzy heights of the highest commissioned ranks.

To be sure, it is the exceptional Jackie that rises very high, but even if he remains an enlisted man the full 10 years before retirement and pension privileges, he may quit the service with as tidy a sum to his account as any won by boyhood friend outside. And that of all the years he can spend admiring, wondering acquaintance of battleland lands--that great sea of crossed, of many men of many climes. There is privilege and service the service because of the popular belief that a man must start at such mean pay, that he receives very small remuneration for a strong, able-bodied man. The able seaman on the small pay is the land lubber, of the inland, absolutely ignorant of water and water craft. His wage is quite big enough for him, he must go to school and be initiated into the mysteries before any value is apparent. As soon as he enlists he is given clothes worth \$45, and then sent to the seamanship on a receiving or training ship. Knowing nothing of his task, "landman" receives pay and rations. He rises from "landman" to ordinary seaman, and presently finds himself seaman, his pay mounting with his rank, the pay of seaman \$24 a month.

A man to be eligible to enlist must pass the rigorous physical examination, be 18 years of age, an American citizen, and able to read and write in English. A merchant sailor upon entering the navy is at once given \$1 a month, and if he has been able seaman on one of the great ocean steamers he starts with seaman's \$24.

On board ship Jackie's general welfare is looked after carefully, he has good food, sanitary surroundings, the privileges of books and papers, free access as well as free library. Jackie himself must take care of himself, he is supposed to have benefit of the resident chaplain's service, spiritual guidance and direction from him in school.

Jackie himself must take care of himself, he is supposed to have benefit of the resident chaplain's service, spiritual guidance and direction from him in school.

SETTING THE SAILS.

books. Then there is the gymnasium if he has not had exercise enough, and the ever easy opportunity for "smoke" or chat and interchanging of yarns. Jackie's life seems not such a bad one after all. And we recur again to the sailor in changing port, his opportunity to see the world at large.

To return to pay and to speak of perquisites. We will begin with the seaman and his \$24 a month and "found." He has allowance of \$9 a month for food, on some ships money is given, on others rations. The \$9 may be made to more than pay for his keep. Joining an eating club is a matter of economy as well as social matter. In addition to the regular monthly wage Jackie gets small gratuities, a dollar here and a five there. Reenlistment brings in a bonus, special duties are paid for punctiliously. After 12 months of sea service may enter one of the various branches of petty officer ratings; as petty officer, third class, his salary is \$30. Another year it depends upon the rating he was at upon his standing--he may have risen to petty officer, second class, and receive \$35 or \$40. If he attains to first class, he will receive \$40 at the least; if he reaches the eminence of chief petty officer, it will mean a salary of \$70. And the extras must not be forgotten along with the \$70.

The next step for an ambitious man is the post of warrant officer; the pay here ranging from \$1,300 to \$1,800 a year with commutation for quarters; the rank that of boatswain, gunner, carpenter, sailmaker, pharmacist, or warrant machinist. The warrant of officers who have served six years as boatswain, gunners, carpenters and sailmakers are commissioned chief boatswain, gunners, carpenters and chief sailmakers, ranked with "but after ensign." Chief warrant officer begins with a yearly salary of \$1,400, and in time may receive as much as \$1,900 a year. But warrant officer is not the highest step to be reached. A congress board will select for the annual appointment of 12 warrant officers, of six years of service, to be ensigns--regular commissioned officers.

Urinary trouble, diabetes. Doan's Kidney Pills cure them all.

Hopkinsville people endorse our claim.

J. W. Pritchett, retired grocer of 752 East 7th St., says: "My back has given me a great deal of trouble. The pain was not continually severe, but came on by intermittent spells, which were sometimes very painful especially after over-exertion of any kind. Being constantly on the outlook for something to relieve me, I happened to read of Doan's Kidney Pills, and was so impressed with testimonials as to their worth, that I procured a box at Thomas & Trahern's drug store. The remedy brought me in every way and I hope that endorsement will be the means of extending relief to some other sufferer."

In her novelette, "The Outsider," which opens the January number of The Smart Set, Beatriz Demarest Lloyd has written an exquisite romance of Italy, a story of rare literary charm and distinction. So delightful is the atmosphere of this tale, and so delicate is the art revealed, that it should take rank with Harland's "The Cardinal's Snuff-Box." This is high praise indeed, but a reading of the story will justify it. The new year opens auspiciously for The Smart Set.

NEW YORK STATE LEADS.

Empire State's Great Growth in Population, the Most of Which Is in the Cities.

The census which the state of New York has just completed must be gratifying to its citizens. The total population is returned as 8,066,572, an increase of 797,778 over 1900, when the inhabitants were found to number 7,268,894.

No other state in the union has so large a population, Pennsylvania coming second five years ago with 6,302,115. The third state in 1900 was Illinois, with 4,821,550 inhabitants, and the fourth Ohio, with 4,157,545. The long lead which New York has over her nearest competitor is one it bids fair to hold for some time to come, for the natural increase of a community of 8,000,000 souls is of itself a most powerful factor, while the Empire State is so situated as to hold for itself no inconsiderable portion of the great immigration from lands over the sea. Its destiny is still imperial, and its power in the commerce and trade of the country is bound to grow with the increase of its population. To day probably one-tenth of the people of the United States dwell within the borders of New York. Greater New York has 4,014,304 inhabitants, far more than are to be found in some sovereign states of influence and importance, say Massachusetts or Missouri.

But while everything assures New York of a long continuance of its present primacy of population, it is evident that tendencies which check the rate of progression are at work there as well as elsewhere. The increase is very far from even, taking the state as a whole, and great as are the figures of the final total they disappoint expectations formed previous to the census. Of the total gain, 577,102 is to be credited to Greater New York, and but 320,676 to the rest of the state. Twenty counties distinctly or mainly agricultural show positive losses of population ranging from 219 in Wayne to 2,458 in Chemung.

In the minor cities that report growth it has been only normal, save where new industries have been established. As a whole, the most marked tendency is urban growth, and that as a condition that owing to the operation of familiar economic causes is not favorable to rapid increase of population of a state as a whole. In congested cities where the struggle rapidly changes from one for profit to one for existence, small families are the rule. . . . The country, with its less expensive life and its humbler needs, is the region for large families, and when we find in a state the rural counties steadily losing we can see that the era of a tacitly regulated growth is at hand.

When we turn to the census data of Greater New York we find at work another agency that checks the rapidity of growth; that is, the desire for comfortable surroundings and for a generally higher range of living. This is expressed in the greater increase percentage in the sections more distant from the business center.

The push of the better element of wage-earners is toward the Bronx, the outermost districts of Brooklyn and kindred areas open to home seekers who can pay but little down. Thus while the percentage of gain in Manhattan borough is shown by the census to be 14.2, in the Bronx it is 35.3, in Brooklyn 16.5, and in Queens 29.6. The increase of population in Manhattan for the five years was but 262,604.

Dead Easy.

"Think," said the teacher, "of a little creature that wriggles about in the earth and sometimes comes to the top through a tiny hole." "A worm," said a small boy. "Yes," said the teacher; "now think of another little creature that wriggles about in the earth and comes to the top through a small hole." "Another worm!" shouted the youngster in triumph.

INDEPENDENTS WILL CONNECT.

Meeting of Telephone Companies to Be Held at Murray Jan. 10.

GROWING IN STRENGTH

Past Year One of Activity and Many Lines Have Been Strung and New Phones Installed.

A meeting of the representatives of the Independent Telephone Companies doing business in West Kentucky and West Tennessee will be held at Murray January 10.

The Independent companies have been very active the past year, and lines have been built and phones placed in almost every farm house in that section.

Exchanges at Benton, Murray, Hardin and other good towns have been built, and an exchange is now being put in at Mayfield.

The object of the Murray meeting will be to have all the companies connect with each other.

The independent companies have become formidable opponents of the Cumberland system on account of being connected with so many farm houses, and now they propose to combine and give free service to their subscribers to all points on their lines.—Paducah News-Democrat.

No Secret About It.

It is no secret, that Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Bolls, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had and it is all O. K. for sore eyes," writes Dr. L. Gregory, of Hope, Tex. 25c at R. C. Hardwick's drug store.

NEXT MEETING

The next meeting of the Athenaeum will be held on Thursday night Jan. 4, unless postponed a week on account of the numerous attractions next week. Those on the program are Messrs. Geo. E. Gray, Barkisland Hamlett and Edmund Harrison.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wasting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh

Scott's Emulsion should be taken immediately. There is nothing that will repair wasting tissue more quickly or replace lost flesh more abundantly than Scott's Emulsion. It nourishes and builds up the body when ordinary food is absolutely fail.

We'll send you a sample free.

CONFLICTING CLAIMS MADE

Miller Says He Will Beat Lawrence But Gives No Figures.

PAYNTER LOSES VOTE.

Drewry Drops Out as a Candidate For Speaker. Caucus Next.

Louisville, Ky., Dec. 29.—Tom Drewry, of Louisville, yesterday withdrew for speaker and threw his seven votes to Miller.

R. W. Miller stated last night that his prospects for being speaker were as bright as they could be. He declined to give out any figures on the race, but said that he had enough votes in the lower house to warrant his election by a safe majority. He said:

"From advices received today I feel certain of election. The boasting of the other side does not have any effect on me whatever. I do not think that it is necessary for me to make any extravagant claims. I am going to win, and that is all there is in it."

In the Paynter headquarters, where Adj. Gen. Percy Haly presides, which is also headquarters for all the Paynter candidates, claims of success were given out on all sides. Both Adj. Gen. Haly and Henry B. Hines said there was nothing to it, but the election of Henry R. Lawrence as speaker of the House and the election of Judge Thomas H. Paynter as Senator.

The Hon. Henry R. Lawrence said last night that he felt confident of being the next Speaker of the House. Said he: "I do not want to put my majority higher than I really think it will be, but I am confident I will get forty votes in the caucus, which is two more than enough to nominate me. I know that I will get forty votes, because men in whom I have the utmost confidence have told me they would vote for me. I do not mind stating that I think my vote will continue to grow stronger till the vote is finally taken."

Although nothing definite was determined in regard to the matter, yet the probable candidates for caucus chairman in both houses were discussed at length yesterday and last night. It was given out at the headquarters of Henry R. Lawrence that W. J. Gooch, of Simpson county, would likely be put forward as his candidate for the chairman of the caucus of the house. The name of Virgil McKnight, of Mason county, is strongly mentioned as the candidate for R. W. Miller for chairman of the house caucus.

The Paynter forces are still undecided as to whom they will name as their candidate for chairman of the Senate caucus, but the name of M. L. Harbeson, of Covington, was prominently mentioned last night in connection with the place. The name of Senator Laben Phelps, of Louisville, has been mentioned as the anti-Paynter candidate for chairman of the Senate caucus.

The support of Judge Paynter and Representative Lawrence do not appear to be in the least cast down over the fact that the Louisville delegation will not be for their candidates. One of them said:

"Why, the Louisville delegation has generally been on the wrong side of the fence in the Speakership race," he declared. "The members from this city and county were opposed to Gerald Finn and Eli Brown, and yet both were elected speaker. Their position has caused us no uneasiness. Judge Paynter's chief lieutenants on the floor of the house will be Gooch, of Simpson; George Wilson of Union; Zeb Stewart, of Callaway; Arnett, of Covington; Jesse Alverson of Lincoln; Matt Redwine, of Carter; and Elliot, Henry Miller, of Hardin; Ed Coran, of Bullitt; Herman Southall, of Christian, and Rogers Blair, of Harrison.

The one change in the senatorial situation is that Senator Ecton of Clark, who changed to Paynter, has returned to Blackburn.

The speakership caucus will be held Monday night and the senatorial caucus is expected to be held Tuesday night. There are few chances for plans in the organization of the Senate and House that are attracting general interest.

Situations Guaranteed.

We do not guarantee situations to prospective students in order to get their patronage. Schools of merit do not resort to such dishonest practices.

Paynter schools "guarantee" situations in order to secure students, because they have no other inducements to offer.

Our work is so thorough that a guarantee is superfluous. Business men are so eager to get competent help here that a large percent of our students take positions before they graduate.

See us before making arrangements for your business and shorthand education at some inferior fake school. We will take pleasure in telling you all about the possibilities in the "guaranteed" of the highest schools. Catalogue free.

Women as well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble greys upon the mind, discourages and lessens ambition; it saps vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not unusual for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a *Home of Swamp-Root* pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BABY GIRL'S AWFUL HUMOR

Would Scab Over, Break Open, and Be Raw—Intense Suffering for Two Years—Doctors and Medicine Failed to Help Her.

CURED BY CUTICURA AT COST OF 75 CENTS

Writing under date of Aug. 15, 1926, Mrs. J. C. Walker, of 5 Tremont St., Woodford, Me., says: "My sister had a terrible humor on her shoulder when she was eighteen months old, causing intense suffering for two years. We had several doctors, and tried everything, but in spite of all we did it kept spreading. One day it would scab over and then crack open and a watery matter come from it and the scabs would all fall off. It would be raw for a time, then scab over again. Some one recommended Cuticura, and we immediately procured a box of Cuticura Ointment, and a cake of Cuticura Soap. She was much better after the first bath with warm water and soap, and an application of the Ointment. Before it was half gone we saw a marked change for the better, and she was entirely cured, without a scar being left, by the one box of Ointment and one cake of Soap. Her skin is now entirely clear, and she has not had a sign of trouble since."

The application of Cuticura Ointment, preceded by a warm bath with Cuticura Soap, gives instant relief, and refreshing sleep for skin-tormented babies, and rest for tired, fretted mothers.

BIG TRADE BRINGS SMILES.

Merchants Wearing Broad Smiles Over Xmas Trade.

UNUSUAL SUCCESS.

Bad Weather Didn't Kill Business by a Long Shot.

In the face of about the worst weather conditions for years preceding Christmas day, our merchants sold last Saturday nearly enough goods to supplement the short sales on Thursday and Friday caused by the horrible weather which kept buyers at home. Monday was a real Christmas day for dealers, many persons from the country delaying making purchases to that time. Messrs. Clark & Johnson, who had put on sale an unusually large stock of fine candies and toys, and not desiring to keep them on hand, knocked prices right and left, and in consequence about closed out their specialties. George Young, opposite the opera house, who always makes big preparations for the holiday trade, fairly outdid himself and now smokes his pipe in peace and satisfaction, and pats his own back with pleasure as he contemplates his business success. W. A. P'Pool & Son, who now conduct the oldest hardware house in the city, had a big share of "Christmas pie." They had been expecting it and had bought largely of Christmas goods. F. A. Yost & Co., the buggy and harness men, had a large sale of everything in their line. This firm has built up a wonderfully large trade by fair dealing, selling goods that are just what they represent them to be.

These houses are all conducted on sound business principles—no misrepresentation, no shoddy stuff—once a customer secured a customer retained. The proprietors are all gentlemen and entirely worthy the confidence that is reposed in them, and the Kentuckian takes pleasure in endorsing them in every way.

Friday morning at 9 o'clock the diagram was placed at the Anderson & Fowler Drug Co. to give all who held unreserved seats at the Tabernacle an opportunity of securing seats for the remainder of the course of attractions. Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Meyers, of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at R. C. Hardwick's drug store, price 50c and \$1.00 a bottle. Trial bottle free.

Dragging to Death

A miserable invalid suffering from disordered female functions, monthly pains, nervousness, falling feelings, dizziness, indigestion, biliousness, constipation, etc., will find relief in Wine of Cardui and Bedford's Black-Draught, two of the most valuable, reliable, scientific, curative medicines known for the treatment of sick women. They are sold at all drug stores, and should be in every home. Try them.

In a Man's Pockets.

A fairly well-equipped gentleman true to his calling and his friends carries a kit of tools. There is a jackknife, a matchbox, a cigar cutter, a nail file, a cork screw, a finger nail tool and possibly a cigar holder, and some good five-centers to give away. And yet women wonder what he finds to put in his pockets. To facilitate further the business of just hanging around, he must have a little money, a handkerchief, bunch of keys, fountain pen, some lead pencils and sharpener, eyeglasses, notebook, watch, old letters, papers of more or less supposed value and a cardcase. Not one pocket could be spared unless it is the one on his nightshirt, and that looks so sweet.—Clay Center (Kan.) Times.

BUCK'S HOT BLAST

Heater Will Actually Pay For Itself.

Because Buck's Hot Blast will produce as much heat and as satisfactory a fire in every way, by using the cheapest dollar and a quarter coal, slack or screenings, as other heaters in which you must use high grade soft coal or hard coal. You can see at a glance how soon this saving in fuel will make a Buck's Hot Blast actually pay for itself. It is not the first cost of a stove that counts so much, it is what you have to pay to feed it, in coal.

L. W. ROGERS, T. A.,

A tempting offer has been made to John, better known as "Mugsy," McGraw, the well-known manager of the New York Giants, to appear on the vaudeville stage as a monologue artist during the winter season. The contract offered the famous player calls for a ten week engagement at \$1,000 a week, and those who know him predict that he would be a success. He has a talent for anecdote that shows itself when the Little Napoleon is in company. No man, not even bearing Tim Hurst, has a bigger fund of entertaining stories of the diamond and the race track at his fingers' ends than has McGraw. When he begins story telling his success is instantaneous. McGraw, if he accepts, will not be the first baseball star to read the boards. Fifteen years ago he late Mike Kelly appeared in vaudeville in a skit written for him by Billy Jerome. Next Arlie Latham, the only real baseball comedian the game has ever known, took a small part in a musical comedy. Then came Adrian C. Anson, in the late C. W. Hoyt's "Runaway Colt," in which "Pop" was the star. Tim Hurst played a brief engagement with Anson. His part was to umpire a baseball game. While rehearsing for this scene one of the members of the company, who sat in the stand as spectators, advised Hurst to "speak louder." "Why," answered Tim, "Timothy, are you hard of hearing?" Christy Mathewson was also offered a vaudeville engagement this fall, but declined the chance, just as Happy Jack Cheshbro did last year, when he was the premier pitcher of the country. Matty preferred to go to Romeo, Mich., this fall on a visit to Frank Bowdman. They spend the time hunting and fishing and partaking of muskrat dinners.

Now that all the golfing tournaments for women for the season of 1906 have been concluded, no particular star among the fair sex can be seen when glancing over the year's play. In the east comparatively few opportunities were afforded for getting a line on the women experts, as open tournaments were very scarce. In the west the competitive phase of the game is given CHARLOTTE DOD, a deal more attention. But even there it is largely a matter of opinion who is the leading golfer. Mrs. Charles L. Dering, champion of the Western Women's Golf association, barely qualified in the national event, and lost in the first match play round. But at that she must be regarded as about the best in the Chicago district now. That Mrs. B. T. Horng has dropped out and Mrs. Vernon J. Hall is not playing up to old-time form. Had Miss Margaret Curtis won in the national championship, the former invariably won until that fatal final round in the national event. In Massachusetts golfing circles Miss Fanny Oggood is fancied by many as the staidest of the lot, with Miss Mary Adams, Miss Kate Harley and Miss Louisa Wells close up. Mrs. Charles T. Stout won the Metropolitan championship at Baltusrol in the spring, and she was a pronounced favorite to win the national. She went off her driving—in fact, got well-nigh hopeless with her wooden clubs. After that the former national champion showed signs of a return to form, and when on her game there are none in the country capable of playing better golf. Charlotte Dod, the subject of the illustration, is the champion woman golfer of Great Britain, who came to America to try to wrest the laurels from American women golfers. In this, however, she was unsuccessful.

The date for the Fitzsimmons-O'Brien contest has been set for Tuesday evening, December 20. The fight will occur at Mechanics' pavilion, at San Francisco.

Japan's Fisheries.
The prosperity of Japan depends very largely upon the sea. A thousand varieties of fish—including the shark—are eaten by the inhabitants, the annual yield of the fisheries being 3,000,000 tons, or three times the consumption in the United States. The value of this product is \$30,000,000. The coasts also supply an edible alga known as laver, and other sea weeds from which food gelatine is extracted, together with large quantities of salt. From Japan, moreover, comes a large quantity of the world's coral and pearls.

WATCH 'EM.

The Police Will Appear in Their New Uniforms Monday.

Our reserves of the peace for the coming year will get their uniforms next Monday, and a fine looking lot of officers they will be. With their helmets, regulation uniforms with shining buttons, hats and new "bills," the arrival of which will have no visible effect, when they are about. While they are not expected to arrest the blundering, denouncing, roar, or arrest a fellow for spitting on the sidewalk, here's dollars, to doughnuts that during their term of service they will make a record for doing their duty for which every body will thank them.

Packing Up.

Mr. Joe, P. Pool, of the Racket, is packing up a large stock of goods and starting out on his own. He secures a suitable room, and he will open up again, and he has done a large business for several years and is one of our best young business men, and we are sure he will soon see his way to making a name for himself.

COURT ATTRACTIONS.

Nos. 2 and 5 at Tabernacle Jan. 3 and 5.

Court attraction No. 4 at the Tabernacle will be presented next Wednesday night, Jan. 3. On this occasion, the magician and illusionist, and company will present a sup entertainment of original mystic creations. This magnificent attraction is one of the finest of its kind ever offered the American public. Magic and mystery have always been a source of wonder and delight to all ages and classes of people. An evening spent with the Law of Magic will prove most entertaining. The company carries out every feature of the business of all kinds of conjuring, magic, and other supernatural acts, and has a magnificent collection of beautiful electrical effects, with which they are provided. This season they are presenting a variety of the most interesting and original acts, and are engaged to Missouri and is now engaged in missionary work. Rev. B. J. Wells made a most favorable impression here and he was pleased with the field, but decided to return to his former home to engage in the work above stated. Rev. Beckett is in charge of a church at Galveston, Tex.

Miss Crane, Humorist.

On a Friday night, Jan. 3, Miss Crane, humorist, pianist, clay painter, and pianist, will appear at the Tabernacle, being attraction No. 4 of the season. Her program consists of a combination of light and dark, the humorous, and the beautiful, and she is filled to the brim with the "art of life," "variety." Here are caricatures and character sketches in crayon and clay, charming, humorous, and laughable piano burlesques follow each other in bewildering succession, and woven throughout the brilliant and swiftly changing music, and music and humor and touches of moving pathos, tender sentiment and homely philosophy, the whole forming, in the words of the San Francisco Examiner, "a novel and charming blending of art, wit and philosophy."

Don't fail to see the great Britt-Nelson prize fight at the Opera House to-day.

AMUSEMENTS.
